Our story

We've got your safety covered.

For absolute protection and performance, you need the very best equipment you can rely on to ensure your safety is taken care of. By combining our innovative ergonomic designs with ground-breaking performance materials we aim to provide you with the winning formula. Our leisure brochure offers a complete product range for those essential items of safety equipment allowing you to enjoy the pleasures of being out on the water.

WHY CHOOSE CREWSAVER?

Crewsaver is recognised as a world leading designer and manufacturer of lifejackets and sailing equipment.

Expert Design

Crewsaver's expert designers work closely with the most experienced lifeboat crews, as well as elite round-the-world racers used to pushing their limits within the extreme wind and wave conditions of the Southern Ocean.

With their unique insight we are able, step by step, to refine every aspect of our lifejackets' design and construction.

We feed these innovations directly into each of our lifejacket ranges, whether for commercial or leisure use, ensuring that whatever your reason for being afloat, your safety is never compromised.

Materials and Fabrics

Whether you seek comfort, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit you.

Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment. We then combine our in depth know-how with the latest technology to construct quality products which offer you the best possible performance.

Firing Mechanisms

Crewsaver works tirelessly with the world's leading firing mechanism manufacturers to ensure that all the units we use offer the best possible performance within each individual lifejacket design.

In addition, we are proud to have introduced the Pro-Sensor Mk3 operating head into our lifejackets as the culmination of a project with one of our valued suppliers.

With an improved mechanism, the head operates in less than a second of coming into contact with water. Just as importantly, it also includes a new anti-tamper locking system. We have combined the Pro-Sensor Mk3 with the MK5i capsule, which incorporates a new sealing method to help prevent inadvertent firings.

Bladder Technology

Our design philosophy begins with approval standards. To this we add the Crewsaver difference brought about by our complete understanding of both daily life and emergency survival in extreme marine environments.

All of our products are designed, tried and tested with real life situations in mind, allowing you to rely on them completely.

For example, all of our lifejacket bladders are designed ergonomically for every day use but without compromise for your survival in the very worst scenarios. In normal conditions, the 3D sculptured shaping gives you maximum comfort and our sculpted sides allow you to move freely and without hindrance. However should an emergency arise and you find yourself in the water, you'll find our unique designs inflate quickly and reliably. They have buoyancy distribution to keep your mouth well above the water, known as mouth freeboard, and top of the range turning properties to safely float you on your back. Our inflatable chin support will also help to keep your airways clear.

WHICH LIFEJACKET?

Whatever your circumstances, be sure to choose your lifejacket carefully. Whether you are selecting for yourself, your family, your crew or your work colleagues, you should consider worst-case scenarios and the type of lifejacket everyone should be wearing for their ultimate safety overboard in that environment.

Buoyancy Rating

290N-275N Inflatable

These are the highest performance lifejackets available from Crewsaver approved to 275N and are designed for offshore and ocean use.

Their high buoyancy offers maximum protection when in severe weather conditions and are also the lifejacket of choice when wearing heavy waterproof or foul weather clothing.

190N-180N Inflatable

Approved to 150N standards, these Crewsaver lifejackets provide more support than the standard 150N models, whilst maintaining minimal bulk. Suitable for: inshore, coastal and offshore use.

165N-150N Inflatable

These lifejackets are ideal for everyday use including cruising in coastal and offshore waters in clear weather conditions. Approved to 150N this category includes the range of Crewfit 165N - 150N inflatable lifejackets, adult and junior sizes. The junior Crewfit model is suitable for younger crew members, aged from around 6 to 12 years old.

150N Air Foam

These jackets come in either a foam only option offering 150N of inherent, permanent buoyancy or 150N air foam option offering 100N inherent permanent buoyancy with the option to inflate to 150N if required.

100N Foam

These products are great for sheltered and coastal waters and can be seen on the river bank, canal side, beach or marina. The 100N foam lifejacket has inherent buoyancy provided by integral foam, giving instant reassurance and security.

Inflation options

Pro-Sensor

The Pro-Sensor inflation system provides the user one point of status indication, to confirm that the unit has been automatically or manually activated. The unit also provides the added benefit of detecting if the CO2 cylinder has been pierced, eradicating the possibility of accidentally fitting an empty gas cylinder.

Hammar Automatic

The Hammar Inflator gives excellent protection from random activation caused by moisture, rain or wave splash. This is achieved by protecting the water sensitive element with a hydrostatic valve, which operates when submerged in over 20cm of water and, depending upon the lifejacket style, held there for between 2 to 3 seconds.

- Hammar works on water pressure, only operating when submerged in 20cm of salt or fresh water
- Limits the possibility of an accidental inflation, even in extreme conditions
- Cylinder is mounted on the inside of the lifejacket inflation chamber

Standard Automatic

Inflation occurs automatically when the capsule is immersed.

- Capsule fires within 5 seconds of entry into water
- Mechanism pierces cylinder, inflating the lifejacket
- Can also be inflated as manually

Manual

Our manual lifejackets will only inflate when you pull the manual pull cord, this option allows the wearer to swim without the lifejacket being activated automatically. This can be useful if you expect to launch or tend a craft in calm waters.

- Pull lanyard
- CO2 cylinder is fired
- Lifejacket inflates
- Delivers full buoyancy in approximately 5 seconds

All gas lifejackets can also be inflated by blowing into the oral tube.

Harness options

Harness

In addition to best practice of wearing a lifejacket at all times, the wearing of a deck safety harness while on a sailing yacht is mandatory at night under RORC (Royal Ocean Racing Club) regulations and highly recommended by all safety at sea organisations whenever there is rough weather.

Non-Harness

The non-harness version is recommended for situations where being attached to the boat is more dangerous than floating free in the water. Powerboats, speed boats and RIBs (Rigid Inflatable Boats) are all examples where being towed alongside at high speed would be dangerous. The fitting of a safety light on non-harness lifejackets is highly recommended. Non-harness lifejackets are lighter in weight and do not have metal fittings or a safety line attachment point.

Crewsaver

Which lifejacket?

A man in a yellow Crewsaver lifejacket is shown on a boat, looking towards the camera. The lifejacket has 'CREWFI' and 'ABU DHABI' printed on it. Another person in a grey lifejacket is visible in the background.

COMFORT.
STYLE.
PERFORMANCE.

THE NEXT LEVEL IN LIFEJACKET DESIGN

The Crewsaver lifejacket range encompasses the most innovative fusion 3D technology, providing users at every price point with the most advanced comfort solutions available to date. The range moulds to the shape of your body and sits off your neck giving the user total freedom of movement – so comfortable you will forget you are wearing it.

FUSION 3D

A large percentage of the boating world still do not wear lifejackets. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable, stylish lifejackets for the everyday boater, whilst increasing the key safety features for vital in water performance.

The introduction of the new Crewfit lifejacket range means that whatever level you are operating at there is a Crewsaver to suit. Following the success of the ErgoFit lifejacket range, chosen for both its increased comfort and safety factors, Crewsaver proudly announce the launch of the complete lifejacket range. Using the same advanced technology encompassed within the ErgoFit range, Crewsaver now offer comfortable, safe and stylish solutions at every level.

The only complete 3D lifejacket range

Whether you seek comfort, performance, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit. Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment.

ERGOFIT THE ULTIMATE LIFEJACKET COLLECTION

Redefining safety, comfort and style

From the professional ocean racer to the recreational boater, the high performance ErgoFit lifejacket is a 'must-have' for anyone who takes safety on the water seriously.

- Rigorous testing and retesting to exceed all safety standards
- Ergonomic 3D design for freedom of movement
- Super fast turn speed
- Twin lifting points to aid recovery
- Market leading inflation chamber keeps airway clear
- Range of inflation options
- ISO 12402-2 approved (290N)
- ISO 12402-3 approved (190N)

FUSION 3D

Redefining safety, comfort and style

Example shown: ErgoFit 290N OCEAN

Survive, be found and get recovered

It is what's inside the ErgoFit that will save your life.

SURVIVE

Turn speed is less than 2 seconds, the ErgoFit will double your survival chances even when wearing multiple layers of Ocean clothing.

BE FOUND

Integrated with a PLB or AIS system. Coupled with a SOLAS approved light (190N cs optional) whistle and reflective tape ensures you are located quickly.

GET RECOVERED

It is critical to get you out of the water as soon as possible, accessible twin lifting points are incorporated on the front of the ErgoFit for ease of recovery.

ERGOFIT It's what's inside that counts

Unique Chin Support
Tilts your head back to help keep your airways clear.

Light
CSL light is essential if you are making a long voyage or a night passage.

Firing Mechanism
Pro-Sensor, Hammar or Manual firing systems are available complete with indicator.

Bladder design
A top-of-the-range bladder turns you onto your back, supports your head and diverts waves from your face.

Spray Hood
Included in ErgoFit lifejackets with easy pull over tabs and piping to help keep the water off of your face.

AIS MOB Device
Compatible with the S20 Smartfind, AIS MOB Device, essential for anyone going offshore.

PLB pocket
For carrying your Fast Find 220 Personal Locator Beacon.

Dual lifting beackets
Designed to aid speedy recovery should you fall into the water.

Crewsaver

ErgoFit

ErgoFit 290N EXTREME

Designed exclusively with Abu Dhabi Ocean Racing, based on the highly successful ErgoFit lifejacket collection, the ErgoFit Extreme maintains all of the high specification safety features of the ErgoFit 290N while providing essential performance attributes for the serious ocean racer.

- Dual buckle system and side waist adjusters
- Robust 500D nylon heavy duty cover
- A unique hanging loop built into the jacket
- Fusion 3D design provides the ultimate in comfort
- AIS Compatible, automatic activation on inflation
- Light & hood fitted as standard

Code	Description	Size	Rearm kit
9145BKAP	Automatic	Adult	11037
9145BKHP	Hammar	Adult	11307

ErgoFit 290N OCEAN

The ErgoFit 290N OC is a 3D-moulded lifejacket designed for those working in extreme marine environments or for serious ocean sailors facing the full fury of the elements.

- Market-leading inflation chamber to turn you face up fast even when wearing full foul weather ocean kit
- Designed to keep your airway well clear of the water whatever the conditions
- Fusion 3D design provides the ultimate in comfort
- Twin, forward pull side waist adjusters
- AIS compatible, automatic activation on inflation
- Light & hood fitted as standard

Code	Description	Size	Rearm kit
9135BKAP	Automatic	Adult	11037
9135BKHP	Hammar	Adult	11307

*New branded ErgoFit's are available summer 2015.

ErgoFit 190N OFFSHORE

The ErgoFit 190N OS is a 3D-moulded lifejacket designed to provide those braving the elements offshore with the extra security needed in all conditions away from sight of land.

- Market-leading inflation chamber to turn you face up fast
- Three-layer cover construction for extreme durability
- Fusion 3D design provides the ultimate in comfort
- Twin, forward pull side waist adjusters
- AIS compatible, automatic activation on inflation
- Light & hood fitted as standard

Code	Description	Size	Rearm kit
1301-AUTO	Automatic	Adult	10007
1301-HAMM	Hammar	Adult	11306

*New branded ErgoFit's are available summer 2015.

ErgoFit 190N COASTAL

The ErgoFit 190N CS is a 3D-moulded lifejacket designed to excel for all coastal water users. With its intelligent cut-away profile, it allows you total mobility.

- Market-leading inflation chamber
- Easy to don with front zip and buckle
- Adjustable fast-fix rear buckles for exceptional fit and ease of movement
- Fusion 3D design provides the ultimate in comfort
- AIS compatible, automatic activation on inflation
- Twin, forward pull side waist adjusters

Code	Description	Size	Rearm kit
1302-AUTO	Automatic	Adult	10007

1302-MANL	Manual L	Adult	10034*

L = Light H = Hood

*cylinder only

ErgoFit 190N PRO

The ErgoFit 190N Pro maintains all of the high specification safety features on the inside as the 190N os, whilst minimising features on the outside. A 3D-moulded lifejacket with the advanced specification on the inside to excel for all coastal and offshore water users.

- Dual soft loop D-rings for attaching safety harness
- Three-layer cover construction for extreme durability
- Dual buckle system and side waist adjusters
- Fusion 3D design provides the ultimate in comfort
- AIS compatible, activates automatically on inflation
- Light & hood fitted as standard

Code	Description	Size	Rearm kit
9115BKAP	Automatic	Adult	10007
9115BKHP	Hammar	Adult	11306

*Available July 2015

NEW
2015

ErgoFit fitted with S20

The addition of the Smartfind S20 Person AIS Beacon turns your ErgoFit lifejacket into your personal AIS search and rescue locating device.

- Automatic activation on inflation of the lifejacket*
- Flashing LED indicator light to make you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

*Only guaranteed if factory fitted

ErgoFit Accessories

S20 Smartfind

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation.

- Automatic activation when factory fitted onto any ErgoFit or Crewfit Pro lifejacket
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

11084

ErgoFit Safety Knife

The ErgoFit Safety Knife is designed to be safe to carry with you at all times on the water, but highly effective should you need to cut through ropes in an emergency.

- Carry pouch included for easy attachment onto ErgoFit lifejacket waist belt

CREWFIT QUALITY, PERFORMANCE AND VALUE

Crewfit Lifejacket Range

The new Crewfit range are the first lifejackets of their kind in the world to offer; safe, stylish, comfortable and affordable solutions to the everyday recreational boater.

Using the knowledge and experienced we have gained during the development of the ErgoFit lifejacket range, alongside 30 years of experience we have in the design and manufacture of inflatable lifejackets we are able to ensure that every Crewsaver lifejacket encompasses the most advanced and essential safety features at every price point.

FUSION 3D

Crewfit 180N PRO

The first of its kind, an everyday boating lifejacket designed using 3D technology to radically increase comfort levels. Successful integration of a high volume shaped bladder design, a peninsula chin support and increased buoyancy to 180N provides you with maximum in water performance. The Crewfit 180N Pro wraps all of these safety features into a fun, stylish, 3D shaped and super comfy cover.

- Indicator window
- Robust outer cover
- Twin, forward pull side waist adjusters
- Crotch strap
- Soft loop D-ring for attaching harness (Harness version)
- AIS compatible, activates automatically on inflation

NEW
2015

Crewfit

*Optional extra spray hood, surface light & S20

Spray hood attachment

Unique buoyancy distribution allowing you to move your arms more freely

A peninsular chin support tilts your neck back and keeps your airways clear

180N Inflation chamber providing exceptional turning solutions even when wearing heavy clothing

UML Pro-Sensor operating head

Manual oral tube for additional air top up

Reflective tape to aid visibility

Attachment point for Crewsaver Surface Light

Whistle

Attachment point for S20 AIS unit, activates automatically on inflation

Lifting becket, allowing your crew to get you out of the water as easily as possible

Crewfit 290N Work Vest

With a high performance 290N inflation chamber and lightweight, hard-wearing cover, the Crewfit 290N is built to suit offshore conditions in combination with heavy-duty foul weather gear.

- Factory fitted crotch straps
- Zip & velcro closure
- Twin quick adjust buckles
- Tough outer fabric to protect the inflatable bladder
- Harness version includes a heavy duty harness belt with stainless steel D-ring and buckle

Crewfit 275N Work Vest

Designed for offshore use in severe conditions, the Crewfit 275N is tailored for use with heavy waterproof clothing yet is still comfortable and practical in more benign conditions.

- Factory fitted crotch straps
- Tough outer fabric to protect the inflatable bladder
- Harness version includes a heavy duty harness belt with stainless steel D-ring and buckle

Crewfit 150N Work Vest

Crewsaver's Crewfit lifejacket represents the best in British quality, performance and value. A single-chamber 150N lifejacket, it is compact and comfortable making it ideal for everyday use.

- Integral deck safety harness approved to EN1095 featuring a heavy-duty harness belt, stainless steel D-ring and buckle
- Factory fitted crotch straps
- Tough outer fabric to protect the inflatable bladder
- Harness version includes a heavy duty harness belt with stainless steel D-ring and buckle

FOAM LIFEJACKETS

Premier 2010

Mirroring the hugely successful original Premier which sold over 750,000 units, we designed the Premier 2010 with our patented Reverse Angle Head Support to achieve the vital in-water performance that the regulations require. Our design brief stipulated ease and intuitive donning and the unique design we achieved includes a neck opening that offers increased comfort plus durability through the use of tried and tested quality components.

- Approved to msc 81(10) as amended by msc 200(80)
- Reflective strips
- Easily adjustable waist belt

Crewfit Work Vest Spray Hood

The Spray Hood stores in a pouch on your waist belt to keep at hand for when the conditions deteriorate. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale.

- Stored in a pouch on the waist belt
- Fits over the wearers head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible
- For Crewfit 150N, 275N & 290N work vest style lifejackets

Code	Description
10040	Red Pouch
10050	Blue Pouch

Crewfit 165N Sport and 150N Junior Spray Hood

The Spray Hood stores in a pouch on your waist belt to keep at hand for when the conditions deteriorate. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale.

- Stored in a black pouch on the waist belt
- Fits over the wearers head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible

Code	Description
10057	Crewfit 165N Sport, Black Pouch
10058	Crewfit 150N Junior (3D Version), Black Pouch

Crewfit 180N Pro Spray Hood

The Spray Hood stores in the lifejacket after being fitted. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale.

- Stored inside your lifejacket
- Fits over the wearers head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible

Code	Description
10056	Crewfit 180N Pro

Crewsaver Surface Light (CSL)

This flashing light meets all relevant safety standards to keep you visible in the worst of scenarios.

- Approved to IMO SOLAS, MED, MCA and RORC requirements
- High powered white LED light
- Flashes for optimum visibility
- Optimum output levels exceed 3cd
- Powered by lithium-ion battery
- Activates on contact with water
- Includes attachment for oral tube, suitable for lifejackets with no specific light attachment point

"brightest light" in PBO test

Boat Owner

10220

Crotch Straps

Fit to your inflatable lifejacket's or buoyancy aid's attachment points for a more secure fit and to hold you in a safer position in the water.

- Detailed instructions included to ensure correct fitting
- For Crewfit 150N, 275N & 290N lifejackets

10032

Whistle

Keep one on your lifejacket and waterproof jacket so that you always have it to hand should you need it. Designed not to clog so it works perfectly when you really need it to.

- ISO 12402-7 Approved
- Spare or replacement to carry with you at all times
- Non-clog design

10677

Self Locking Safety Lines

For use with your safety harness, these safety lines are available with or without a load indicator. The load indicator option activates when the line is placed under an extensive load of 7000-9000 newtons. There is additionally a warning label which, when exposed, means the safety line should be replaced as soon as possible.

- Coloured yellow for visibility
- Load indicator and warning label

CHILDREN'S LIFEJACKETS

Reinventing lifejackets for children

Crewsaver have yet again pushed the boundaries of re-design by making a radical change to baby and children's lifejackets.

A move from 100N to 150N buoyancy plus other key safety and comfort features sets the bench mark in providing the ultimate performance when taking your loved ones on the water.

Why 150N?

Increased collar stability to reduce lolling of the head

The 50N extra buoyancy provides the user with increased stability when in the water. This can be particularly useful when the child is moving/splashing around or has fallen in rough seas.

Increased buoyancy means increased distance from the water, also known as mouth freeboard
Babies and Children are small which means they need more buoyancy than your average adult to stay high out of the water. Having a jacket which provides 150N of buoyancy means the wearers head and mouth will stay high out of the water increasing their safety if they were to fall in.

High visibility yellow

Vibrant colours and reflective tape means your children will always be seen if they do fall in, a funky cartoon on the Euro lifejackets keep the jacket appealing to the children as well as the adults.

Sculpted neck construction provides additional comfort and stability

Additionally the supersoft foam and soft feel outer fabric ensures the maximum comfort of the jacket.

Quicker Spin Time

Increasing the level of buoyancy means a direct drop in time it takes for the child to turn around should they fall in face down. With the 150N the baby/child's face can be up and out of the water in 3-5 seconds!

Example shown: Supersafe 150N

Supersafe Air & Foam 150N

The Supersafe Air & Foam is one of the only children's and baby lifejackets available on the market designed and suitable for ocean, offshore and coastal use. Integral design features significantly advance the lifejackets performance and comfort levels.

- Harness with built in D-ring
- Contour cut foam for excellent turning
- Additional manual inflation chamber to increase buoyancy
- Adjustable crotch and waist straps

Buoyancy Aids

Our top of the range, multi-purpose and user-friendly buoyancy aids enable support, safety and efficiency for all types of surface watersports. Crewsaver buoyancy aids are available for a variety of different activities specifically designed to suit the needs of what you are doing.

Phase2 50N

Designed specifically to meet modern dinghy sailors' most stringent requirements, the Phase2 50N is an exceptionally comfortable solution. Side zip entry, 3D shaped super soft foam, and neoprene side panels provide top of the range comfort solutions.

- Neoprene side panels
- 3D shaped supersoft foam with low profile waist cut out for excellent fit
- Large front pocket with mesh drain point
- Adjustable waist belt with concealable webbing and buckles

Sizes J S/M M/L XL XXL

6900

BUOYANCY AIDS

Kite 50N

Slim line side zip entry and trapeze harness cut out make the Kite 50N buoyancy aid the first choice for dinghy racers everywhere. Waist adjuster is easily hidden inside the front cover to avoid snagging.

- 3D shaped Supersoft foam panels
- Large front pocket with mesh drain point
- Adjustable shoulder straps and waist belt

Sizes J M/L S/M XL

2393 2394

Kasmira 50N

Asymmetric front zip entry and unique hidden waist adjustment that eliminates snagging make the Kasmira 50N the perfect choice for any recreational boater looking for a waistcoat style buoyancy aid.

- Water resistant zip with hidden pocket
- 3D Shaped super soft foam panels
- Adjustable shoulder straps and waist belt

Sizes J S/M M/L XL

2383 2384

Chromis 50N

Slim line pull-on entry with trapeze harness cut out ideal for racing. Waist adjuster can be hidden away inside the front cover to avoid snagging.

- 3D shaped supersoft foam panels
- Water resistant zip with hidden pocket
- Fully concealed, snug free buckles and webbing

RESCUE AND SAFETY

Hamble Horseshoe Buoy, Bracket & Light Set

The Hamble Horseshoe Buoy, Bracket & Light set is one of the most compact lifebuoy sets on the market today. Constructed from layered EPE foam and tough PVC material for durability. Includes a lithium battery powered light with a 5 year life. Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

Super soft foam

Light operates using a lithium battery with 5 year life

High visibility yellow

Flashing, SOLAS approved LED light

100030

Purchase as individual Items to upgrade your existing lifebuoy

Hamble Horseshoe Light

The Hamble Horseshoe Light uses the latest LED technology featuring low current consumption and enhanced reliability. A bright flashing light to help enhance visibility should a crew member fall overboard during the night.

- SOLAS Approved
- Maximum 5 Year life
- Over 30 metres drop height
- Lithium battery included
- Activates automatically when thrown into the water, can also be manually activated

900013

Hamble Horseshoe Bracket

Constructed from stainless steel the Hamble Horseshoe Bracket combined with the Hamble Horseshoe light is the ideal solution for anyone looking to update their Crewsaver Horseshoe Buoy to be suitable for use at night.

- Constructed from stainless steel
- Easy installation

900014

Horseshoe Buoy

Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Layered EPE foam for the ultimate in buoyancy
- Tough outer PVC material to ensure longevity
- High visibility yellow

1320-BUOY

Throwing Strop

Ensure a fast rescue with just one piece of equipment. The throwing strop provides an innovative combination of both rescue line and lifting strop.

- Durable outer fabric
- 30 metre high strength line

1320-STROP

Lifeline

An essential piece of lifesaving kit that no boater should leave the dock without. Protected by a compact, durable and hi-visibility housing, the 20-metre Lifeline is constructed from 200D nylon to guarantee strength and performance even in extreme conditions.

1320-LIFE

Rescue Sling

The Rescue Sling provides a pre-shaped design ensuring easy donning so that a casualty can be recovered from the water safely and quickly should you be in an unexpected man overboard situation.

- Tough PVC outer fabric to aid long life
- 30-metre high strength line

1320-SLING

Kontour Helmet

Whether at work or for leisure, when you need head protection the Kontour provides a comfortable, lightweight solution coupled with the reassurance of its CE approval for impact resistance.

- Comfortable foam padding
- Fully adjustable webbing cradle to ensure a perfect fit

CREWSAVER ISO OCEAN LIFERAFT

ISO Ocean Liferaft

INCREASED SPECIFICATION IMPROVING SAFETY & PERFORMANCE

Every year hundreds of leisure craft get into distress in open, coastal and inland waters. Among the most common incidents are fires, collisions or rogue waves: therefore it is essential you equip your vessel to ensure the safety of all on board.

Using our skills and expertise in the design and manufacture of both liferafts and lifejackets, we have created the most advanced specification ISO Ocean Liferaft yet.

Developed specifically for the global leisure market, the Crewsaver ISO Ocean offers:

- High manufacturing quality at a competitive price
- Superior quality – designed and manufactured to ISO 9650-1
- Can be serviced globally by Survitec Group's network of over 580 fully approved stations
- A lightweight and compact container or valise for ease of transportation
- Lloyds Class ISO approved

■ Rainwater catcher on the rear of the canopy

■ High visibility SOLAS standard reflective tape to aid visibility

■ Internal SOLAS standard LED light

■ Interior and exterior lifelines help occupants stabilise themselves in heavy seas

■ Easy to locate righting lines in case of accidental capsize

■ External SOLAS standard strobe light attached to the roof of the canopy, makes it easier for search and rescue teams to locate in darkness

■ Lookout sleeve located on the side of the canopy

■ Simple zip-closed canopy door

■ Thermally insulated floor

■ A semi-rigid boarding ramp and webbing ladder for quick, easy and safe boarding, in addition to interior and exterior lifelines

■ The canopy is manufactured in a tough Polyurethane (PU) coated nylon - 170g/sqm

■ PU tubes with taped corners to aid longevity

■ Exterior pressure relief valves ensure excess CO₂ is not released into the liferaft

■ High volume water ballast pockets ensure maximum liferaft stability when inflated
 - 4 Man - 2 x 84 litre water pockets
 - 6, 8 & 10 Man - 3 x 84 litre water pockets
 - 12 Man - 5 x 60 litre water pockets

Compact Solution

Lightweight and compact, the Crewsaver ISO Ocean Lifteraft is easy to store and takes up minimal deck space, whilst offering complete confidence in an emergency, being deployed in less than one minute.

Material and fabric technology

The liferaft is made from a highly durable, long lasting Polyurethane (PU) coating providing the following:

- Flexibility
- Long lasting
- Abrasion resistant
- Highly reliant
- Highly durable
- Chemically inert fabric

Grab Bag

All over 24hr products include a waterproof, buoyant and sealed grab bag, packed inside the raft containing additional survival equipment:

- Flares
- SOLAS thermal protective aids
- ISO first aid kit
- Drinking water
- 500g ration pack per person
- Also available as an optional extra allowing you to upgrade when required

Supplied in either a weather proof valise or a sleek, lightweight container with side handles for ease of transportation.

12 YEAR WARRANTY WITH EXTENDED 3 YEAR SERVICE INTERVALS

Hammar H20 Small Rafts Model

Designed for liferafts from 4 up to 12 persons and outside SOLAS regulations, The Hammar H20 for small rafts consists of a double looped white rope line, a release mechanism and a Red Weak Link with a green lower thimble (breaking strength 1,2 +/- 0,4 kN).

The white strong rope of Hammar H20 is secured to the deck or liferaft cradle and attached to the liferaft lashing with a sliphook. If the boat sinks, the water pressure will, within approx. 4 metres, activate the sharp knife, that cuts the white strong rope and the liferaft will float free. As the boat sinks, the liferaft painter line will be stretched and the liferaft starts to inflate. The Red Weak Link breaks and survivors can board the floating liferaft. The Hammar H20 needs no annual service, maintenance or spare parts, but must be replaced after 2 years of use.

- Hammar H20 is activated if the vessel sinks

HR-0200

Hammar H20 Solas Model

Designed for liferafts from 6 up to 150 persons.

The Hammar H20 release unit consists of a double looped white rope line, a release mechanism and a Red Weak Link™ (breaking strength 2,2 ± 0,4kN).

The white strong rope of Hammar H20 is secured to the deck or liferaft cradle and attached to the liferaft lashing with a sliphook. If the boat sinks, the water pressure will, within 4 metres, activate the sharp knife which cuts the white strong rope and the liferaft will float free. As the boat sinks, the liferaft painter line will be stretched and the liferaft starts to inflate. The Red Weak Link™ breaks and survivors can board the floating liferaft. The Hammar H20 needs no annual service, maintenance or spare parts, but must be replaced after 2 years of use.

- Hammar H20 is activated if the vessel sinks

Insert for reinforced training mark	1.3m	Inflatable twin skin with weight bag 1.9m x 0.3m (6'2" x 1')	10075

Mast Head Float 40L

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsizing.

- Only effective when correct buoyancy float is fitted - owners are responsible
- Sustainable for use with double handed sailing dinghys up to 16ft long

10086

Mast Head Float 9L

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsizing.

- Only effective when correct buoyancy float is fitted - owners are responsible
- Sustainable for use with single handed sailing dinghys up to 4ft long

10085

Please remember: Crewsaver Mast Floats do not guarantee to stop a boat inverting and their performance can be hindered by the conditions. Such conditions include a strong tide, wind, swell or incorrect righting procedure.

Buoyancy Bags

Built from the highest quality abrasion resistant PU coated nylon with leak-free welded construction, Crewsaver buoyancy bags are long lasting and available in sizes to fit most dinghies.

- PU coated nylon
- Welded construction
- Long lasting and abrasion resistant
- 18 to 193 litres of buoyancy

MCMURDO PRODUCTS

McMurdo survival products - a world leader in the design and manufacture of state-of-the-art emergency beacons - including EPIRBs and PLBs.

G5 Smartfind EPIRB

The G5 Smartfind Plus GPS is a GMDSS compliant distress radio beacon essential for aiding rescuers reach survivors within the first 24 hours of an incident at sea.

- Visual indication of GPS acquisition
- Battery status monitor
- 6 year battery storage life

Code	Description
11061	Manual Bracket
11076	Auto Housing

E5 Smartfind EPIRB

The E5 Smartfind EPIRB is a GMDSS compliant distress radio beacon essential for aiding rescuers reach survivors within the first 24 hours of an incident at sea.

- Unique CARRYSAFE bracket (manual)
- SOLAS approved auto housing
- High brightness LED flashing locator lights

Code	Description
11074	Manual Bracket
11075	Auto Housing

Fast Find 220 PLB

Explore the world with peace of mind. The Fast Find 220 PLB is a lifesaving distress beacon with integral buoyancy pouch, designed for marine enthusiasts and adventurers.

- Buoyancy pouch
- Neck lanyard
- 6 year battery

11060

S20 Smartfind

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when correctly fitted into the ErgoFit and Crewfit Pro lifejackets
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

11084

S10 Smartfind

The Smartfind S10 is designed to be activated in the event of a man overboard situation or other personal crew emergency. The unit transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 5 year battery storage life

11065

S5 Smartfind

Stored in a quick release carry off bag, the rugged S5 Smartfind is buoyant and waterproof to a depth of 10m. When activated, the S5 transmits an alert message.

- High visibility
- Shoulder strap to aid carrying in emergency evacuation
- 96 hours of continuous transmission

11079

S4 Rescue SART

Designed to be stored in a liferaft or as a carry off device, the S4 Rescue SART is buoyant and waterproof to a depth of 10m. When activated, it detects radar signals from other vessels or aircrafts and automatically transmits a response signal that appears on the other vessel's radar display.

- Suspend in liferaft or mount higher using the integrated extending pole
- 96 hours operation

11073

Spare parts

Smartfind Auto Float Free Housing

Supplied with a float-free housing, the Smartfind E5 EPIRB automatically deploys and activates the EPIRB if the boat is sinking.

11078

HRU Replacement Kit

Replacement hydrostatic release unit to fit the following EPIRB's.

- E4
- G4
- Precision
- Rescue
- E5
- G5
- RT260M
- McM406A

Design and Fabric Technology

GLIDESKIN NEOPRENE NECK & CUFF SEALS

Non irritant, high stretch for ease of donning and extreme water resistance.

SUN PROTECTION

Sun protection factor of UV50+.

TAPED SEAMS

Added strength and water resistance.

REFLECTIVE PRINT

Reflective print for added visibility.

REFLECTIVE TAPE

Reflective tape for added visibility.

EXTREME BREATHABILITY

Body water vapour is allowed to escape for greater comfort.

INDICATOR WINDOW

FREEDOM OF MOVEMENT

UNIQUE CHIN SUPPORT

AIS COMPATIBLE

EXCEPTIONAL TURNING SPEEDS

3D SHAPE FOR UNRIVALLED FIT

QUICK BURST ZIP

FUSION 3D

BS EN ISO 12402-?

Approved to the latest British and European standard.

BUOYANCY CATEGORY

The level of buoyancy that defines each product and the environment they are suitable for.

CYLINDER SIZE

The size of CO2 cylinder used to inflate the lifejacket.

SPRAYHOOD

Fits over the wearer's head to reduce the amount of spray being inhaled.

LIGHT

SOLAS approved lifejacket light.

INFLATION MECHANISM OPTIONS

(M) Manual, (A) Automatic, (H) Hammar.

EN 396

Approved to British Standards.

FRONT ZIP

Quick, easy & secure closure.

ADJUSTMENT FEATURES

Various adjusters to guarantee a bespoke fit and extreme comfort.

SUPERSOFT FOAM

Soft 3D foam shaped to your body for extreme comfort.

NYLON

Durable, lightweight and water resistant fabric.

RIPSTOP

Hard-wearing, anti-tear fabric.

NEOPRENE

Extremely versatile synthetic rubber, highly flexible and insulating.

TX20K

A highly durable 3 layer fabric for extreme waterproof protection. Delivers the ultimate in performance and comfort.

ERGONOMIC DESIGN

Pre-shaped for increased flexibility and freedom of movement.

HIGH WICKING

Moisture is efficiently absorbed away from the body for additional comfort.

CURVED ZIP

The front zip curves around the body for freedom of movement when sailing.

PU COATED NYLON

Lightweight yet durable water resistant fabric.

DX10K

Lightweight 2 layer fabric comprising a tough waterproof and windproof outer and a breathable layer with additional print lining for increased durability and protection: MVP: 3,000/g/m2/24hrs; WP: 5,000mm.

MICROFLEECE LINED

Additional comfort and warmth.

THERMA CONTROL

Range of layers that create endless combinations for any weather conditions.

100% WATERPROOF

Fully waterproof fabric with taped seams.

ARTICULATED ELBOWS

Pre-shaped arms for increased freedom of movement.

REINFORCED WEAR AREAS

Provides additional strengthening.

POLYPROPYLENE

Lightweight yet durable soft feel fabric.

MUSCLE SUPPORT

Close fitting against the body for extra hold.

FLATLOCKED SEAMS

Added comfort against the skin.

ADJUSTABLE SHOULDERS

Offer increased comfort, flexibility and an excellent fit.

USE WITH HIKING PADS

Compatible with Crewsaver hiking pads.

NYLON/SPANDEX

Highly stretch fabric for extreme freedom of movement.

AMARA

Hard wearing reinforcement for high wear points.
